Experience

Senior Developer Advocate with over 10 years of experience bridging the gap between complex engineering challenges and global developer communities.

A technical authority who has delivered 100+ talks to global audiences, driving adoption for Cloud, AI, and Mobile technologies. Specialist in native app development, cross-platform frameworks and Developer Experience (DX), with experience with influencing product roadmaps as "Customer Zero" and helping developers integrate modern cloud/AI backends into high-performance mobile apps through Agentic workflows.

Amazon Web Services / Senior Developer Advocate

JUNE 2022 - PRESENT, BERLIN / GERMANY

Working closely with AWS Amplify and Serverless service teams to offer solutions targeting mobile and web developers.

- **Global Technical Evangelism:** Defined and executed the global developer strategy, delivering **100+ talks** and workshops (including 10 sessions at AWS re:Invent) to audiences at major conferences with 60,000+ attendees. Authored **24+ technical blog posts** and produced video content that drove measurable adoption of AWS Mobile services.
- **Engineering & "Customer Zero":** Directly influenced the 2026 product roadmap by stress-testing pre-release features and acting as the primary feedback loop between the community and service teams. Built **14 open-source reference applications** (available on AWS & personal GitHub) covering how to do full-stack development in **Serverless architectures for iOS, Android and Web**, building AI applications, and best practices to use Agentic workflows and AI coding assistants while developing applications.
- **Developer Experience (DX) Strategy:** Led the Developer Experience strategy for Amplify Gen 2, owning the Information Architecture and "Getting Started" documentation for iOS, Android, and Flutter. Oversaw the DX for the strategic migration of **Amplify iOS libraries from Objective-C to Swift (alongside Java to Kotlin and Dart)**, ensuring the public API and documentation met modern developer standards.
- **Community Leadership:** Working closely with the local communities around the central Europe region with a focus on the German speaking part (DACH region). Prior to this, Managed a **10,000+ member** Discord community. Orchestrated "Amplify Month" in India, coordinating 8 User Groups to deliver workshops and technical sessions to **1,000+ developers** and more.

Superlist / Senior Mobile Developer (Flutter)

OCTOBER 2020 - JUNE 2022,, BERLIN / GERMANY

- **Architecture & Performance:** Led the mobile engineering for the Superlist productivity platform, delivering a scalable architecture supporting millions of users.
- **Open Source Authority:** Co-authored `super_editor`, a high-performance document editing engine built to solve complex text rendering challenges in collaboration with the Google Flutter team.
- **Native Capabilities:** Developed **native desktop capabilities for macOS** and contributed to open-source libraries to extend framework functionality.
- **Team Leadership:** Built and mentored a high-velocity engineering team, establishing development standards and achieving 100% retention.

Klar / Senior Mobile Developer (Flutter)

JANUARY 2020 - OCTOBER 2020 / GERMANY

- **Native Integration:** Bridged the gap between Cross-Platform and Native layers, **creating custom iOS/Android platform channels** to enable critical financial features unavailable in standard frameworks.
- **FinTech Security:** Transformed the mobile banking experience for a FinTech startup. Implemented bank-grade security features including **Biometric Authentication (FaceID)** and Identity Verification.
- **DevOps:** Established automated CI/CD pipelines to ensure stable releases and reduce deployment time.

Onefootball GmbH / Android Engineer

APRIL 2019 - DECEMBER 2019, BERLIN/ GERMANY

- **Scale:** Worked on the user experience and personalization for a leading media platform with 10+ million downloads and a 4.7-star rating.
- **Privacy & Compliance:** Led the implementation of Consent Management (CMP) to ensure strict GDPR compliance while optimizing monetization flows.
- **Modernization:** Migrated legacy Java code to Kotlin and integrated modern Android Architecture components.

Karlmax Berlin GmbH & Co. KG / Android/Flutter Engineer

DECEMBER 2016 - MARCH 2019, BERLIN/ GERMANY

- **Agency Delivery:** Delivered high-profile mobile solutions, including the digitalization of the ARTE network (Live Streaming/VOD) and white-label apps for major German real estate providers.
- **Innovation:** Spearheaded the company-wide adoption of Flutter

and Kotlin, establishing the agency as a leader in modern mobile tech.

Videocom / Android Engineer

SEPTEMBER 2015 - DECEMBER 2016, ANKARA/TURKEY

- **IoT Ecosystem:** Architected a scalable smart home automation system integrating Zigbee hardware protocols, deployed across 5,000+ residential units.

Acknowledgments and Education

Google Developer Expert for Flutter and Dart

SINCE FEBRUARY 2019

Anadolu University / Computer Engineering /Bachelor's Degree

SEPTEMBER 2010 - JUNE 2015, ESKISEHIR/TURKEY

Brno University of Technology / Computer Engineering

SEPTEMBER 2013 - JUNE 2014, BRNO/CZECHIA
